EDUCATION

JSPM's Jayawantrao Sawant College of Engineering

Bachelor of Engineering (Computer Engineering) **CGPA - 7**

2021 – 2025

Pune, Maharashtra

Rayat Shikshan Sanstha's Dr Babasaheb Ambedkar College, Aundh

12th Percentage - 75.50

2019 – 2021

Pune, Maharashtra

PCMC secondary School, Thergaon

10th Percentage - 70.80

2017 – 2019

Pune, Maharashtra

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, C Sharp

Frameworks Libraries: React.js, Redux, Node.js, Express.js

Databases: MongoDB, PostgreSQL

Tools Platforms: Git, GitHub, VS Code, AWS S3

Other: JWT, REST API, Context API

COURSEWORK / SKILLS

- Data Structure And Algorithms
- Operating Systems
- OOPs Concepts
- Computer Networks
- Software Engineering
- DBMS

PROJECTS

Local Room Search [🔗](#) | React.js, Redux, Google Maps API, Node.js, AWS S3, MongoDB, JWT 2025

- Built a responsive web app that allows users to search for available single and double rooms near their current location.
- Integrated **Google Maps API** for real-time geolocation tracking and map-based room discovery.
- Implemented user authentication using **JWT** and managed user sessions with **Context API**.
- Developed a secure backend with **Node.js** and **MongoDB** to handle user data and room details.
- Integrated **AWS S3** for efficient image storage and retrieval of room photos.

Delivery Order Management [🔗](#) | React.js, Context API, Node.js, JWT, MongoDB 2024

- Designed and developed a platform to manage orders from placement to delivery with real-time status tracking.
- Built a dynamic front-end using **React.js** and managed state with **Context API**.
- Enabled secure authentication for sellers and delivery agents using **JWT**.
- Created a **RESTful** backend using **Node.js** and **MongoDB** for storing order, seller, and delivery data.
- Ensured seamless communication between users and system via real-time updates.

Task Management+User Authentication [🔗](#) | React.js, Context API, Node.js, Express.js, JWT, PostgreSQL 2024

- Developed a full-stack task management platform for creating, updating, and deleting tasks within multiple projects.
- Engineered an intuitive and responsive UI using **React.js** and managed client-side state via **Context API**.
- Secured user authentication with **JWT** to ensure data access control.
- Utilized **PostgreSQL** for reliable storage and management of project and task data.
- Built robust backend APIs with **Node.js** and **Express.js** to handle all user and task operations.

Certifications

- MongoDB, PostgreSQL - Prepinsta (2024)
- Java (Basic) – PrepInsta (2024)
- React.js – PrepInsta (2024)

Achievements

- Secured Global Rank 4704 in TCS CodeVita Season 12, among 5+ lakh participants.
- Solved 300+ coding problems on platforms like LeetCode and GeeksForGeeks platforms
